

9: Estimating Quotients

Round each to the nearest tens and then divide

$79 \div 14$ is approximately _____

Round each to the nearest tens and then divide

$99 \div 21$ is approximately _____

Round each to the nearest tens and then divide

$183 \div 28$ is approximately _____

Round each to the nearest tens and then divide

$213 \div 73$ is approximately _____

9: Estimating Quotients

Round each to the nearest tens and then divide

$79 \div 14$ is approximately 8
 $\begin{array}{c} \text{79} \\ \text{80} \end{array} \div \begin{array}{c} \text{14} \\ \text{10} \end{array}$

Round each to the nearest tens and then divide

$99 \div 21$ is approximately 5
 $\begin{array}{c} \text{99} \\ \text{100} \end{array} \div \begin{array}{c} \text{21} \\ \text{20} \end{array}$

Round each to the nearest tens and then divide

$183 \div 28$ is approximately 6
 $\begin{array}{c} \text{183} \\ \text{180} \end{array} \div \begin{array}{c} \text{28} \\ \text{30} \end{array}$

Round each to the nearest tens and then divide

$213 \div 73$ is approximately 3
 $\begin{array}{c} \text{213} \\ \text{210} \end{array} \div \begin{array}{c} \text{73} \\ \text{70} \end{array}$
